Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 6, 7, 9, 11, 15, 16, 17, 18 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Yie, U.S. 4,478,368.

Yie discloses a rotating (col. 13, line 39-50) fluid jet (120) having a mixing chamber (127) with of abrasive particles (at 122) therein, rotational scanning means (col. 13, lines 46-48) for moving the offset impingement area (at 141) along a circular trajectory, and a modulation system (fig 14) having adjustable pumping means (109; col. 14, lines 43-52) and adjustable abrasive conveyor means (111, 112, 113; col. 15, lines 14-17).

Allowable Subject Matter

Claims 3-5, 8, 10, 12-14 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 31 March 2008 have been fully considered but they are not persuasive.

Applicant argues the prior art does not disclose particle modulation means.

The prior art discloses the quantity of introduced solids may be readily changed in the passage cited above including a regulator and valve.

Applicant argues the prior art does not disclose an adjustable pumping means.

The prior art states necessity and means to vary liquid pressure in the passage cited above.

Applicants argue the prior art seeks to avoid pressure fluctuations and fluid through the nozzles are not modulated.

The prior art discloses avoiding pressure fluctuations to eliminate need for a pressure accumulator and including fluid and particle modulation as above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
